

The University of Texas at Austin  
**Mechanical Engineering**  
*Cockrell School of Engineering*

The Department of Mechanical Engineering at the University of Texas at Austin seeks outstanding applicants for tenured and tenure-track faculty positions from the Assistant to Full Professor levels in the Materials Science and Engineering Area. Specific areas of interest include but are not limited to energy materials, electronic materials, materials for additive manufacturing, structural materials, biomaterials, advanced materials characterization (*in situ* and *ex situ*) and computational materials science. The successful candidates will work closely with the Texas Materials Institute and the Materials Science and Engineering graduate program.

Please apply for this position at <https://apply.interfolio.com/38138>

Interested applicants should submit the following: a cover letter, current vitae, a statement of research and teaching interests, and a list of at least five references. For those applying at the Assistant Professor level, please also provide a copy of your graduate academic transcript.

The successful candidate will be required to complete an Employment Eligibility Verification form and provide documents to verify identity and eligibility to work in the U.S. A security sensitive background check will be conducted on the applicant selected. The University of Texas at Austin is an Equal Opportunity, Affirmative Action Employer. Women and minorities are especially encouraged to apply.
