

TENURE-TRACK FACULTY POSITION

**College of Engineering, Computing, and Applied Science
Department of Materials Science and Engineering
Clemson University, Clemson, SC 29634**

The Department of Materials Science and Engineering at Clemson University (<http://www.clemson.edu/mse/>) invites applications for a tenure-track faculty position in the area of polymer materials science, with a starting date of August 15, 2019. Candidates should have a Ph.D. and/or postdoctoral experience in materials science and engineering, polymer chemistry and/or physics, polymeric materials engineering, or related disciplines. The Department has vigorous research and comprehensive infrastructure in the area of polymer science. The successful candidate is expected to develop nationally and internationally recognized, externally funded research program focused on design, synthesis, and/or fabrication of novel functional adaptive polymeric materials. Candidates are also expected to strive for excellence in teaching of undergraduate and graduate courses in their area of expertise.

Application materials including curriculum vitae, a description of proposed research plan(s) and teaching interests (up to five pages) and three letters of reference (pdf preferred) should be uploaded to Interfolio: <http://apply.interfolio.com/58120>. Full consideration will be given to applications received by January 18, 2018; however, applications will be accepted until a suitable candidate is selected.

Clemson University is an AA/EEO employer and does not discriminate against any person or group on the basis of age, color, disability, gender, pregnancy, national origin, race, religion, sexual orientation, veteran status or genetic information. Clemson University is building a culturally diverse faculty and staff committed to working in a multicultural environment and encourages applications from minorities and women.
