

The University of Wisconsin-Madison  
announces a new faculty position in the  
**DEPARTMENT OF MATERIALS SCIENCE  
& ENGINEERING**

[www.engr.wisc.edu/mse](http://www.engr.wisc.edu/mse)

**NANOMATERIALS** The **Department of Materials Science & Engineering** in the College of Engineering at the University of Wisconsin Madison seeks faculty candidates for a tenure track Assistant Professor position in the area of Nanomaterials. Particular areas of interest include: design of nanomaterials, especially the integration and assembly of nanostructures into larger functional structures and materials, bio-inspired hierarchical materials design, and the interdisciplinary area between soft and electronic nanomaterials.

Specific areas include (but are not limited to) soft electronic materials or hybrids that connect with our current nanomaterial design efforts in the areas of next-generation flexible electronics, human-machine interfaces, and environmental and sustainable materials.

Successful candidates will teach and develop undergraduate and graduate courses; supervise graduate student research; develop and direct a strong, funded research program; participate in departmental and university faculty governance; and contribute to professional and public service.

Requirements: PhD or equivalent degree in Materials or a related field, 2 years research experience, and an outstanding reputation in the field.

**ANTICIPATED START DATE IS FALL 2018.**
