

# UC San Diego

The Xtreme Materials Laboratory at UC San Diego has an opening for a post-doctoral researcher

We are looking for a researcher interested in the development of carbide materials for aerospace applications at ultra-high temperatures, with a potential start date as early as January.

Desired expertise areas include the synthesis of non-oxide ceramics, mechanical properties characterization, and excellent writing skills.

If interested in discussing, please send an email to Prof. Olivia Graeve at [ograeve@ucsd.edu](mailto:ograeve@ucsd.edu)
